

For this revised ADV assignment, I had to focus on extending the document to 3 pages instead of 2 and a half so it could meet the minimum requirements. I also needed to focus on the target audience so I added an extra paragraph in that section which ultimately fixed it to 3 pages. I had to better format the end of the document to fit the format of the example given in the textbook. The grammar for this assignment was really good so I didn't need to focus much on GSP, more so formating and making sure the document was long enough.
